***Detailed Action***

1. This Office Action is submitted in response to Amendment filed 3-23-2009, wherein claims 26-28, 31, and 34 have been canceled, and new claims 36 and 37 have been added. Claims 25, 29, 30, 32, 33, 36, and 37 are pending.

***Examiners Response to Arguments***

2. The examiner agrees with the arguments filed 3-23-2009 that the prior art cited in the previous Office Action fails to disclose the now claimed invention and the rejections therein are hereby withdrawn.

***Allowable Subject Matter***

3. Claims 25, 29, 30, 32, 33, 36, and 37 are allowed

***Examiner's statement of reasons for allowance***

The following is an examiner's statement of reasons for allowance:

4. The prior art discloses a charged particle beam apparatus that includes means for calculating the deflector alignment adjustment (correction) based upon the image movement amount detected from the focal point adjustment process carried out with an objective lens (an optical element), and a formula that indicates the value of the adjustment amount applied to an alignment deflector that is calculated based upon the relationship between a parameter and the image movement amounts. See for example, USPN 6,067,164 to Onoguchi; and USPN

5,627,373 to Keese. However, the prior art fails to show the use of a formula that calculates the amount of image movement after applying a predetermined signal to the alignment deflector as compared the amount of image movement before applying the predetermined signal to the alignment deflector.

5. Claims 36 and 37 are allowed because the prior art fails to show a means for calculating the deflector alignment adjustment (correction) based upon the image movement amount detected from the focal point adjustment process carried out with an optical element, and a formula that indicates the value of the image movement amount after applying a predetermined signal to the alignment deflector as compared to the value of the image movement amount before applying the predetermined signal to the alignment deflector.

6. Claims 25, 29, 30, 32, and 33 are allowed by virtue of their dependency upon allowed claim 36.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
